Ronald McDonald Care Mobile® of North Dakota

For years, there has been a tremendous need in western ND for oral health care for children. In response, Ronald McDonald House Charities of Bismarck is bringing the Ronald McDonald Care Mobile® to North Dakota. The Care Mobile is a state of the art dental clinic on wheels that will deliver desperately needed oral health care to underserved children in their own neighborhoods in western North Dakota.

Partnering with Bridging the Dental Gap, Inc. to provide the dental services, the Care Mobile will begin operations in February of 2012. Children who have not seen a dentist in the previous two years, ages 0 to 21, will be eligible for basic treatment, including exams, sealants, fluoride treatments, fillings and extractions. Most children will be Medicaid eligible, but no child will be turned away for inability to pay. We expect to treat between 800-1,000 children each year.
